

Quarterly Generation Report

Output by region and technology for the reporting year. All figures are in gigawatt hours and are provisional until audited.

Region	Q1	Q2	Q3	Q4
North	1214	1180	1105	1298
South	986	1002	1044	975
East	1530	1488	1512	1575
West	874	861	902	890

The second table breaks the same output down by technology.

Technology	Capacity MW	Output GWh	Load factor
Wind	2400	6318	0.30
Solar	1800	1735	0.11
Biomass	640	4483	0.80
